Alessandria, February 12, 2019. The Board of Directors of Guala Closures S.p.A., the global leader in the production and sale of safety and aluminium closures for the spirits and wine markets, examined today the preliminary consolidated results – net revenue, Adjusted EBITDA and Net financial Indebtedness – for the year 2018³.

Group's Chairman and Chief Executive Officer comment

"Guala Closures" comments Marco Giovannini, "confirms its world leadership and the historical resilience of its multinational business model with more than 90% of its sales outside Italy, which makes it an anti-cyclical company with stable and important margins in the range of 20%.

Even in an extremely volatile world context, characterized by strong financial and commercial tensions, the increase in market shares, the launch of new products, a significant acquisition and the refinancing of the debt in the context of the listing at Milan Stock Exchange were successfully pursued and concretized".
